

# Company Overview

Southern Spring and Stamping, Inc. is a family owned and operated company, producing springs, wireforms, stampings and sheet metal products since 1957. We have manufacturing locations in Venice, FL and Stokesdale, NC. Since our inception we have strived to deliver quality components that are competitively priced and on time. Our goal is complete customer satisfaction. We are continuously upgrading our equipment, technology and processes to maintain the highest level of quality and service. Our diverse product capabilities will enable you to reduce your supplier base.

Southern Spring and Stamping, Inc. features over 100,000 square feet of modern workspace to give us the ability to produce your custom products quickly and accurately from start to finish. We serve a wide range of industries such as:

- Aerospace
- Medical & dental
- Industrial
- Electronics
- Automotive
- Military
- Consumer products
- Lawn & garden equipment
- Telecommunications
- Hydraulics & many more

# Southern Spring & Stamping, Inc.

Established in 1957

Our Products are Proudly Made in the U.S.A.

ISO 9001 Certified and ITAR Registered

## Springs & Wire Forms

Southern Spring & Stamping, Inc. specializes in the production of custom compression, extension & torsion springs and wire forms. By combining state-of-the-art technology and trained, experienced technicians, we consistently produce the highest quality products in any desired quantity.

- Wire range from .006" - .472"
- CNC controlled equipment
- Rapid prototype development
- Custom packaging options available
- Color coding & powder coating
- Low to high production volumes

## Stampings & Four Slide Products

Southern Spring & Stamping, Inc. is your premier source for precision metal stampings. Our experience, combined with the latest equipment and technology maximizes quality and efficiency. We provide a wide range of products; from simple stampings and flat springs to complex formed stampings and metal fabrications. Our in-house tool room enables us to provide short run tooling or longer run progressive dies to suit your production requirements and to offer the most cost effective solution.

- CAD/CAM capable
- In-house tool and die facility
- Wire EDM
- Variety of secondary operations
- Hardware installation and assembly
- Rapid prototype development
- Low to high production volumes

## Sheet Metal Fabrication & CNC Machining

Southern Spring & Stamping, Inc. is a full service precision sheet metal fabricator housing the most efficient CNC equipment available. Our CNC machining center is capable of meeting a full range of requirements; from prototypes to high volume production. Through customized programming, we can optimize and reduce set-up times. Our state-of-the-art equipment and highly trained technicians ensure consistently high-quality, cost-effective products on demand.

- CNC controlled equipment
- Silk screening and pad printing
- Powder coating and wet electrostatic paint
- MIG, TIG, and spot welding
- Hardware installation and assembly
- 4th axis machining
- 3-D solid modeling & machining
- Rapid prototype development
- Low to high production volumes
